o Organization Salary

\$38,000

Overall Analysis

o Organization Salary vs. Market

95%

¹ Represents estimates of specified market pay levels based on Cascade's comparison of Organization vs. survey job definitions. Using actual market data for specified job, survey pay levels are projected if the Organization Job is equal to (=) greater than (+) or less than (-) the Survey Job. All data has been aged to estimated current market levels (January 2018).

² Competitive Market Range assumes Company observes a "market average" (Regional Scope) base pay strategy. Estimated market norm reflects a simple average of all data sources combined.
